Systems of Management Certified
 for Compliance with ISO 9001,
 ГОСТ Р ИСО 9001 and ISO 14001, OHSAS 18001

NP 12:52 (MAP)

(Monoammonium phosphate)

- Concentrated chlorine and nitrate-free NP fertiliser
- Especially effective on soils with low phosphorus content
- Contains phosphate in water-soluble, readily-available form
- Improves plant resistance to stress such as drought or frost and certain diseases
- Increases sugar content in fruit and root-crops
- Suitable for most soil and crop types
- Especially efficient as an autumn applied fertiliser for winter crops, as a main fertiliser dressing for root-crops and as a supplementary dressing for fruits crops
- Excellent storage and spreading characteristics due to superb granule strength
- Produced from pure raw materials
- Suitable both for straight application and blending

Appearance	Greyish granules
Total Nitrogen (N)	12 ±1 %
Phosphorus pentoxide (P ₂ O ₅): Total P ₂ O ₅ P ₂ O ₅ available, min.	52 ±1 % 99% of the total P ₂ O ₅
Moisture content, max.	1.5%
Granulometric composition: Under 1mm, max. 2-5 mm, min. Under 6 mm	3 % 95 % 100 %
Granule static strength, min.	3.0 MPa
Friability, min.	100 %

Note: Upon the Customer's request the product may be treated with an anti-dusting and anti-caking additive

PACKAGING AND TRANSPORTATION:

- MAP is available in bulk and big-bags (500-1000kg)
- Should be stored under cover
