Systems of Management Certified
 for Compliance with ISO 9001,
 GOCT P ICO 9001 and ISO 14001, OHSAS 18001

NPKS 14:34:0:8

(ammonium phosphate sulphate)

- Highly concentrated nitrate- and chlorine-free complex NP-fertiliser with sulphur
- Contains nitrogen in the ammoniacal form to provide plant nutrition during the whole growing period and to prevent leaching
- Sulphur (in the water-soluble sulphate form) improves crop quality
- Efficient for all types of crops for spring seedbed or top dressing application
- Especially effective for oil-seeds, legumes and other brassica crops
- Excellent storage and spreading characteristics due to superb granule strength (tested to spread accurately up to 40m)
- Produced from pure raw materials
- Suitable for both straight application and blending

Appearance	Granules of greyish-pink to light brown color
Total Nitrogen (N), min. of which Ammoniacal Nitrogen, min. Nitric Nitrogen, min.	14% 14% 0 %
Phosphorus pentoxide (P ₂ O ₅): Total P ₂ O ₅ , min. P ₂ O ₅ available, min.	34% 96% of the total P ₂ O ₅
Sulphur: S (SO ₃), min.	8 (20)%
Moisture content, max.	1%
Granulometric composition: Under 1 mm, max. 2-5 mm, min.	3% 95%
Granule static strength, min.	3.0 MPa
Friability, min.	100 %

PACKING AND TRANSPORTATION:

- NPKS 14:34:0:8 is available in big-bags (500-1000 kg)
- Should be stored under cover
